

PhD-Programs in Medical Sciences

General Topics: Christoph Schwarzer:

041.515 Strahlenschutz, biologische Sicherheit und Umgang mit gefährlichen Substanzen VU1

(Radiation Safety, Biological Safety, Handling of Hazardous Materials and General Safety in the Laboratory)

The lecture will be held in **four 90-min units**:

Monday, **June 7, 2021** 8:30 - 10:00
Tuesday, **June 8, 2021** 8:30 - 10:00
Thursday, **June 10, 2021** 8.30 - 10:00
Friday, **June 11, 2021** 8:30 - 10:00

Exam: individual appointment

Location: WEBEX

Aim of this lecture is to give students basic introduction of the legal situation and the national legal regulations with respect to genetically modified organisms, and radiation and chemical safety.

Also general topics of lab-safety will be discussed.

A major focus of the lecture will be web-based data mining for project specific informations using specific, safety-related web-sites.
